EXERCISE YOUR HAND AND BRAIN

Wield a brush and know the joy of watching the beautiful effects of your own workmanship.

Is the woodwork scuffed; the furniture badly worn, or the floors in bad shape?

Why not do them over yourself? If you've never done such work, it's about time you started.

Don't put it off, start right now. Get a can of

SPARTANA

The Practical Varnish Stain

The results will be a revelation to you. Practical results, too, for SPARTANA is not merely a theoretical mixture to appeal to woman's fancy.

It is practical, because we have specialized for years on stains and other wood finishes for furniture and piano manufacturers.

SPARTANA will produce a brilliant, durable finish on floors, woodwork, furniture, at very little cost—because you will save the main cost when you do the work yourself.

Demand SPARTANA. The dealer who offers you a substitute is not friend of yours. Nothing is just as good as SPARTANA.

SOUTHERN PINE LUMBER CO.

OIL AND GAS DEVELOPMENT OF TRI-STATE

Latest Reports of Operations in West Virginia, Pennsylvania and Ohio.

The old producing districts are receiving a great deal of attention. Where there is room operators are drilling new wells on old leases and doing all that is possible to make the old wells produce as much as possible. Cleaning out and shooting is a method that is generally practiced. In some localities operators are resorting to drilling old wells down in the hope of getting additional production in some of the lower producing formations. Only those engaged in this kind of work know how small are the returns. Operators who have invested heavily in leases in the lower Southwest fields are hopeful that a new pool may be discovered within the next few months. One thing is assured, the effort made will be as great or greater than at any time in the past.

Western operators, judging from reports from Oklahoma and Kansas, the mid-continent operator is not having any better success in his search for new territory than the eastern contingent. In all sections there is an abundance of capital waiting to be invested as soon as conditions are favorable.

West Virginia developments. Late completions in the West Virginia fields do not differ much from day to day. Very few of the wells are above the average registered during the month of April—seventeen and one-half barrels. In the old Sistersville field in Tyler county, the Carter Oil Company completed and shot in the Keener sand its No. 10 on the M. T. Wells farm. It is showing for a very light pump.

One and one-fourth miles east of Friendly, Union district, Tyler county, the Melrose Oil and Gas Company has drilled a test into a lime formation and developed a gas well with a capacity of 1,000,000 cubic feet a day. The gas pressure is expected to subside rapidly, and in that event

Wonders for Me.

"I have been a sufferer from stomach trouble for a number of years, and although I have used a great number of remedies recommended for this complaint, Chamberlain's Tablets is the first medicine that has given me positive and lasting relief," writes Mrs. Anna Kadin, Spencerport, N. Y. "Chamberlain's Tablets have done wonders for me and I value them very highly." Obtainable everywhere.—Advertisement.

the well will be drilled to the Keener sand. In Centerville district the Carnegie Gas Company completed a test on the J. B. Mason farm. The location is 1,500 feet north of the Sun Gas Company's test on the Cain heirs' farm and is dry. In Union district, Wood county, Parsons and Sweeney Brothers have started to drill No. 6 on the Rebecca Walker farm and the South Penn Oil Company is drilling No. 14 on the J. B. Hendershot farm.

On Short run, Center district, Tyler county, Walton Brothers have material on the ground for a rig on the Nathan Cain farm. On McElroy creek, McElroy district, the Chalmers Oil and Gas Company is drilling a test on the S. P. Lemaster's farm. In Grant district, Wetzel county, the Fisher Oil Company has the rig completed for a test on the Margaret Smith farm. In Centerville district, Tyler county, the Manufacturers Light and Heat Company is drilling tests on the F. Ferrell and C. M. Wilcox farms.

Southeastern Ohio. On the Ohio side in the Payne district, Washington county, located in Lawrence township, the People's Banking and trust company drilled No. 5 on the S. A. Binnegar farm through the second Cow Run sand and scored a duster. In the same locality W. A. Decker is drilling No. 4 on the L. F. Decker farm. In the Caldwell district, Noble township, Noble county, J. O. McKee and Company have completed No. 4 on the A. J. Every farm. It is dry in the Macksburg 700-foot sand. In Enoch township in the same county, S. L. Alter had the same kind of luck at a test on the Lechard Gerst farm. This location is 1,500 feet north of production.

T. H. McCray has completed his No. 2 on the Bess lot, located in the Corns district, Monroe township, Perry county, and it is showing for a light pump in the Berea grit. In the Reas Run district, Independence township, Washington county, Willard Thornhill and Company have started to drill No. 7 on the Deucher Bliss farm.

Southwest Pennsylvania. The local fields are completing a good many wells of light caliber. Near Fugger pumping station in Allegheny county, the American Natural Gas Company drilled a test on the Baird farm into the Thirty-foot sand and it made one flow. It will be drilled deeper. The South Penn Oil Company has made a location on the adjoining farm. The same company will be due to get the sand this week at a test on the James Berry farm. Over in the vicinity of the Fifth producer on the Esther Evans lot in Indiana township, the Wilkinsburg Oil and Gas Company has the rig completed for a test on the Peter Quintett farm and Elmer Laughner and Company have the rig completed for a test on the Samuel Gogger farm. Perry L. Walley and Company are ready to start the drill at a test on the J. P. Rope farm. The Jerry Evans Oil and Gas Company's well on the Esther Evans farm is holding up at seventy barrels a day.

North of Oakdale, Shields and Company, after testing their well on the James Walker farm, decided it

would not make a profitable producer and pulled it out. They are moving the material to a location on the Whitmer farm. Near Rogersville, Center township, Green county, the Manufacturers Light and Heat Company has completed a fair gasser on the Grinnage farm.

Kentucky Producing Properties Sold. The first sale of any magnitude in the new field near Irvine, Estill county, Ky., has just been consummated. Root, Duff and Company have sold their producing property, on which are five wells with a production of about 400 barrels a day, to Cleveland, O., parties for a consideration of \$140,000. Within the next three weeks the Cumberland Pipe Line Company expects to have its line completed to the wells and with its completion will be able to handle all of the production.

Norwood, Johnson and Company have just drilled in a well in the Irvine pool that produced 100 barrels the first ten hours after it tapped the pay. The location is inside of defined territory. Late visitors returning from Estill county say the Irvine field has not been defined and with the increased operations should have a higher production.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a yellow complexion—dark rings under your eyes—pinpoints—a bilious look in your face—dull eyes with no sparkle.

Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective.

They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.
